

ALKA - H2
Energized Alkaline Water Bottle

Alkaline Water On the Go!

Energized Multi-Mineral Borosilicate Glass Bottle

Revitalize and Energize yourself all day with the water from ALKA H2 with disposable Dietary Mineral sachets. Now, you can TRANSFORM regular drinking tap water or bottled water which are commonly safe to drink into a healthy, Alkalized, Anti-oxidant, Micro-clustered, Mineralized, and Energized water with AFT Resonance Technology™.

Water is very important to our body because it can help prevent Acidosis. The accumulation of acid wastes in our body (acidosis) is the underlying cause of degenerative diseases. Highly Energized, Alkaline water with major dietary minerals helps prevent Acidosis and helps in establishing homeostatic balance.

ENERGIZED BY AFT!

The ALKA H2 and Dietary Mineral are ENERGIZED with our proprietary Quantum resonance technology: AMized Fusion Technology (AFT).

The AFT Energized products resonating at Zero Point Field or Life force energy, help our energetic system to cleanse, charge and rejuvenate our subtle energy, thus support our energy balancing and healing.

Don't just drink safe water, drink healthy water!

Whatever water you intend to drink, just pour into the ALKA H2, shake, and leave it for 5 minutes, and drink!

BENEFITS

- Easily converts normal drinking and bottled water, which are 5.5 - 7 pH to 8 - 8.5 pH.
- Its anti-bacterial function cleanses, sterilizes and prevents heavy metal absorption
- Its Anti-oxidant property prevents Acidosis and enhances immune system
- The AFT Energized Minerals boost metabolism, increase energy, support healing and energy balancing.
- Replenishes essential minerals and micro-nutrient elements, such as calcium, iron, zinc, magnesium, copper, and selenium.
- Supports detoxification and overall health.
- Keeps you hydrated on the go!

pH and ORP TEST

- ★ Micro-clustered
- ★ Alkaline pH.
- ★ Anti-oxidant
- ★ On the Go!
