BIO-ENERGY TITANIUM BRACELETS & NECKLACES

TECHNOLOGY IS CREATED
FOR OUR CONVENIENCE AT
THE EXPENSE OF OUR
HEALTH!

WE ARE EXPOSED TO EMF
and E-SMOG!

EMFs and e-smog influence metabolic processes in the human body and exert various biological effects on cells through a range of mechanisms. EMF & E-smog disrupt the chemical structures of tissues since a high degree electromagnetic energy absorption can change the electric current in the body.

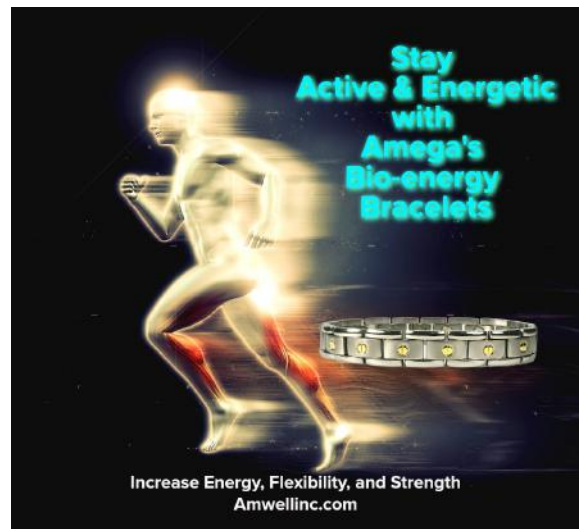

Our body is physically connected by a network of over 70 trillion self-producing cells and is made up of energy. They are all dependent on our body's Bio-energetic field, which has its own vibratory signature of electromagnetic rhythm. When this field is imbalanced, so do our feelings, our thoughts, and our health, and our lives. As a result, we become imbalanced and experience 'dis-ease'.

The Omega Bio-Energy Bracelets and Necklaces are manufactured with a combination of ancient magnetic therapy with the latest far-infrared therapy (Germanium). They are practical yet fashionable products for everyday use that bring about huge health benefits.

- Titanium Steel - not sensitive to skin
- Rare Neodymium Magnets - about 3000 gauss
- Pure Germanium (Emits Far Infrared Rays)

HOW DOES IT WORK?

As our blood cells are negatively charged, the negative pole in the magnets (which are facing your skin) repels the blood for better circulation and increase metabolism. The positive pole in the magnets on the other side, repels the oxidative stress and eSmog to protect your energetic field.

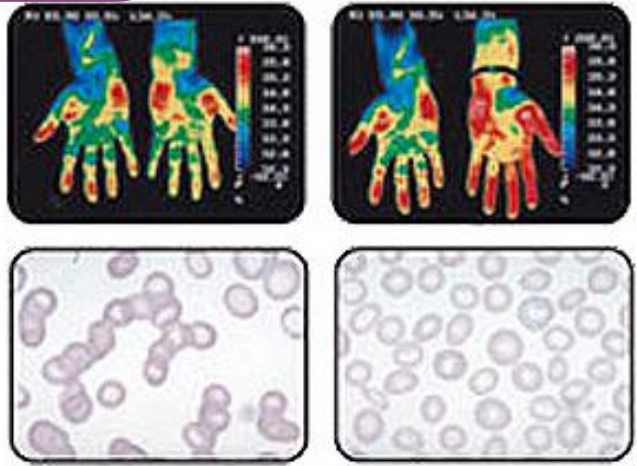

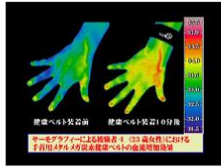

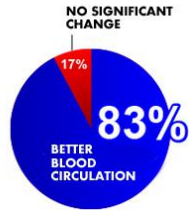

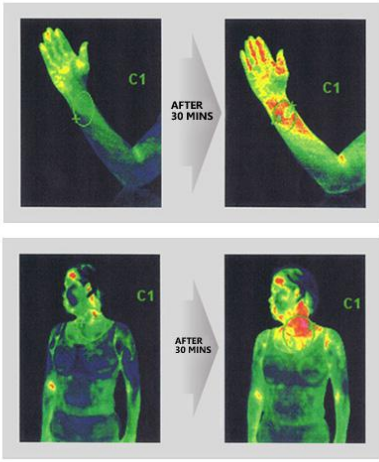

Far Infrared Ray (FIR) emitted from Germanium has the ability to balance the body's ions (bioelectricity), stimulate your blood circulation, act against inflammation, promote elimination of poisonous carcinogenic heavy metals, toxic substances, lactic acid, excess sodium, and activation of sebaceous glands.

This allows your body to detox and eliminate these toxic materials through your skin instead of your kidneys. In addition, FIR also promotes tissue regeneration and reduces cramping.

AMWELL TECHNOLOGIES GROUP

BETTER BLOOD CIRCULATION

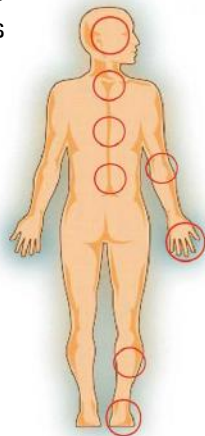

AVAILABLE IN
MAGNETIC ONLY
OR
A COMBINATION OF
MAGNETS &
GERMANIUM (COMBI)

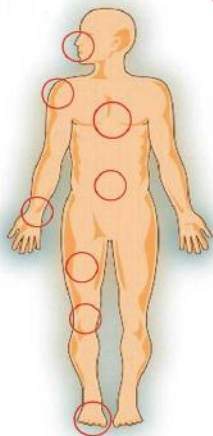

While scientific research has not been conclusive, some people are said to have experienced the various benefits including:

- Improved metabolism and increased blood circulation
- Raised oxygen levels
- Regulated positive and negative ions within the body
- Removed harmful toxins
- Relieved stress, stiffness, joint and muscle pain
- Protected Biofield from EMF and eSmog pollutions.
- Reduced water retention
- Relieved fatigue and tiredness

Multiple Benefits

- Stress
- Anxiety
- Depression
- Chronic Pain
- Insomnia
- Chest Pain
- Fatigue
- Headaches
- Osteoporosis
- Surgery Pain
- Inflammation
- Arthritis
- Tension
- and more

* Magnetic bracelets & necklaces are not recommended for pregnant women and people with pacemakers.
