

ONENESS

Stay Well & Safe

Energy Balancing & EMF Protection
AFT Energized Quantum Resonance Pendant

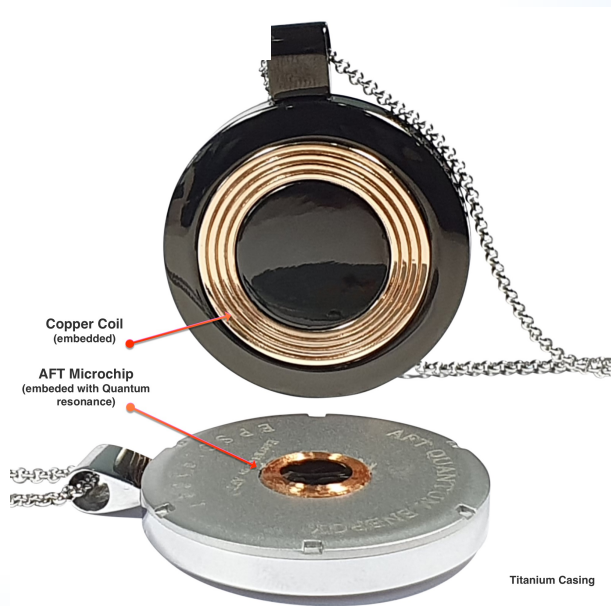

The AFT ONENESS PENDANT

Is designed and manufactured applying the principles of Quantum resonance. The ONENESS Pendant is filled with a combination of minerals and crystals, encased in a titanium pendant casing, and fitted with a special AFT microchip at the back. The AFT ONENESS Pendant is further ENERGIZED with AMized Fusion Technology™ (AFT) for 21 days in an AFT vacuum chamber. AMized Fusion Technology™ is a proprietary quantum resonance technology to resonate at Life Force resonance.

THE AFT MICROCHIP

The AFT microchip made with ionized copper is embedded with a unique quantum resonance coding. It has a powerful conductive natural energy resonance activated from the body's heat and vibration. This alters EMF wave in the surrounding area to a safe wavelength for the body's cellular structure. The AFT microchip acts like an air or water filter, it filters the wave particles and allows it to interact with the EMFs, and transmutes the EMFs in the surrounding area as well as providing absorption of Life force energy.

Why is It Important?

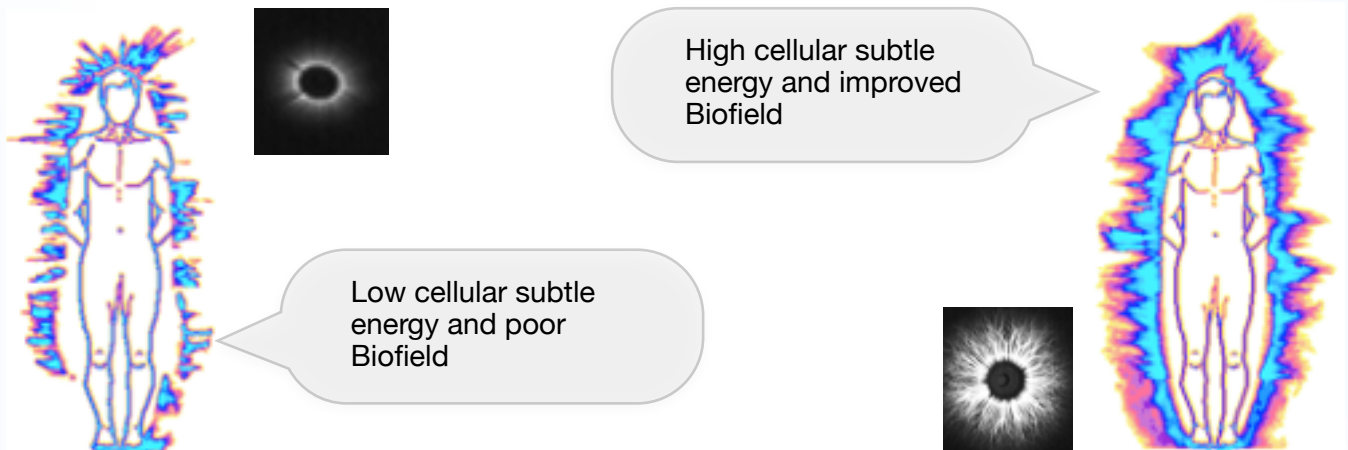

We are a "bundle" of condensed energy resonating at a very special personal vibration. Every person is unique and has a unique energy system. The thoughts we have, sounds we make, emotions we experience are all but ENERGY in motion. We are made up of over 100 trillion cells, comprising of atoms which are powered by a subtle energy also known as "life force energy".

Our body is surrounded by an invisible field called the Biofield (bio-photon field) which is commonly known as the "aura". According to Quantum Physics, the Biofield is a self-organizing, self-directed, intelligent system that directs the information and energy flow of the body, which is crucial to the genetic, chemical, and physiological process of the body.

The energetic aspects of the structure and function of the body along with all the feelings that we experience such as thoughts, states of consciousness, physical sensations and much more are contained and managed within the Biofield. The Biofield is like our Earth's Ozone layer, when damaged, weakened, would upset the order and eco-system.

Unfortunately, we live in a busy world today laden with stress, unhealthy lifestyles and harmful environment which dissipates our Biofield resulting in lack of energy and energetic disorders which eventually lead to long term health issues.

How Does it Works?

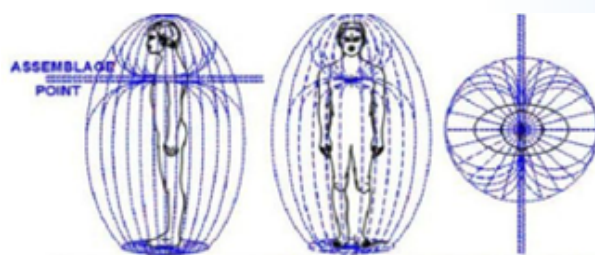

When worn, the AFT ONENESS pendant supports (like a conduit) our Biofield to source the life force energy from the environment, thus restoring the energy deficiencies, clearing its distortions, and empowering our energetic wellness. When imbalances are cleared and energy is balanced, our body returns to homeostasis.

Wearing the AFT ONENESS Pendant daily strengthens our Bio-Field; its Quantum resonance that embodies the Biofield helps block harmful e-Smog and radioactive pollutants. Numerous research studies have shown that prolonged exposure to e-smog can disrupt our body's natural energy balance, which is irreversible, and it stresses the system constituting a health hazard.

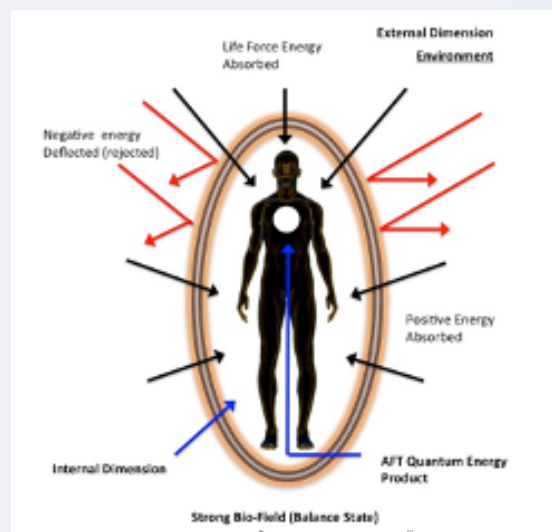

When the AFT ONENESS Pendant is worn, it should sit at the assemblage point which aligns with the Heart Chakra. The assemblage point is the core center of your energetic system. This synthesizes the Biofield, and the personal vibration with the Heart Chakra, which is aligned with the Thymus Gland. The thymus gland plays an important role in the functioning of the immune system, builds resistance for combating diseases and helps in physical development. The AFT ONENESS Pendant helps to balance mental, emotional, spiritual and physical quantum.

Regular use of the AFT ONENESS Pendant helps to sync your Biofield with the Quantum resonance of the Pendant which in turn empowers and enriches your subtle energy, bringing about numerous benefits:-

1. Assists in harmonizing your Mental, Emotional, and Physical quantum.
2. Assists in supporting and strengthening your Biofield
3. Helps to clear the energy blockages and imbalances
4. Helps to increase vitality, strength, flexibility and energy levels
5. Supports the Thymus Gland in strengthening the immune system
6. Helps to enhance quality of rest and reduction of stress
7. Assists in protection against e-Smog, oxidative stress, and negative energies
8. Supports in relief and fast recovery from aches, pains, and discomfort

Specifications: Unisex Design

Metal: Titanium Casing in Silver or Black Enamel Polish Finish

Diameter: 40 mm, Thickness: 6 mm

Comes with a complimentary 20-inch stainless steel chain.
