

"You can trace every sickness, every disease and every ailment to a mineral deficiency."

Linus Pauling - PhD
(2 Times Nobel Prize Winner)

Minerals are the most permanent part of a living organism, responsible for muscle responses, the transmission of messages through the nervous system, the maintenance of pH and the metabolism of food. Because the body is unable to manufacture them, minerals must come from the diet. Due to over-cultivation, toxicity in soil, use of synthetic fertilizers and pesticides, our food we eat are depleted of natural minerals and trace elements.

AMGenex AMsole (AM So-lay)

AMsole is made from concentrated pure ancient Pink Himalayan crystal salt. Himalayan Crystal Salt is more than sodium and chloride. AMsole is made from pure crystalline salt in its original form: holistic, wholesome, unaltered, natural salt, as it has been crystallized in the earth over millions of years. Natural Himalayan crystal salt contains all the elements which the human body is comprised of. From the periodic table of elements, we are familiar with 84 natural elements (stable as well as unstable). Apart from inert gasses, all of these elements can be found in crystal salt. Hence, crystal salt contains all natural minerals and trace elements that are found in the human body.

AMsole can actually be viewed as food as the main ingredient: Himalayan Pink Crystal salt contains the 84 minerals, which includes macro minerals, like Calcium, Chloride, Iron, Magnesium, Phosphorus, Potassium and Sodium. Calcium is the most common mineral that plays a vital role in nerve and muscle health. In addition, it also contains trace minerals like Boron, Chromium, Copper, Fluoride, Iodine, Manganese, Molybdenum, Selenium, Zinc etc.

This "white gold" is untouched by toxins and pollutants that pervade other forms of sea salt. Its minerals exist in a colloidal form and that makes them tiny enough for our cells to absorb them quickly and easily. Because of its unique structure, Himalayan Salt also has the ability to store vibrational energy. The crystalline structure is so profound that its self-healing vibration pattern lasts over 24 hours in our bodies. Hence, AMsole is energized with our proprietary AMized Fusion Technology (AFT)TM.

Importance of Minerals

Energized by AFT™

AMized Fusion Technology (AFT)™ is a unique Quantum Resonance Technology where organic ingredients are ENERGIZED to resonate at Zero Point Field. AFT Energization enhances the integrity of the ingredients, increases the potency and ability to vibrate at Zero Point Life Force. The energy resonance of AMsole supports our body to self-regulate and self-maintain, helps to clear energy blockages & imbalances and bringing balance to all aspects of your mental, emotional, physical and spiritual health. Administered over a period of time, AMsole rejuvenates, enhances our inner vitality and supports in healing itself.

The Benefits of AMsole (AM So-lay)

AMsole can supply the body with 84 essential ionized minerals and trace elements found in Himalayan Pink Crystal Salt which our body can hold for up to 24 hours, thus providing the cell with sufficient nutrients for cellular rejuvenation. The increased generation of hydroelectric energy in your body's cells, triggers nerve - cell communication and information processing, which helps to cleanse, unblock energy, balance energy and support healing. The Himalayan Pink Crystal Salt in AMsole helps to eliminate heavy metals like Lead, Mercury, Arsenic, Amalgam and Calcium by breaking down their molecular structures.

More benefits...

Strengthens bones: Osteoporosis, in many ways, is a result of salt and water shortage in the body.

Helps In hydration when our body naturally repairs (heal) and detoxifies during sleep.

Helps the Body to Detoxify- AMsole is a natural anti-bacterial that can help remove bad bacteria in the body.
